Policeman Cook Quotes Him as aying Bellboy "Wouldn't Get Me a Woman So I Shot Hm."

Testimony in the trial of A. Samuel Bender, special prosecutor in the Rutherford murder case, began shortly before noon today with the State seeking to prove second-degree murder against William Allen Scott Rutherford as a necessary basis in trying to establish its charge that Bender compounded a felony by using his influence to get Rutherford off on \$500 fine so he could collect \$5500 from Rutherford's brother, John.

The first witness was Patrolman Edward R. Cook of the Central MUNCIE, Ind., July 28.—George District, one of several policemen wounded Jack Tucker, Majestic

He was to receive about 25 per cent on a contingent basis of what he recovered from the Rutherfords. The State will show that Bender was appointed special prosecutor, appeared as such at every setting of the case in court and was present in that capacity on May 5 when Rutherford was freed on \$500 fine at the recommendation of the Circuit Attorney, who told Assistant Circuit Attorney Bowcock to say important witnesses are missing. "It is the contention of the prosecution that the witnesses were not missing and that the defendant Bender knew they were not. Reduced! 100 Costume-Room Frocks of Seasonable Types

Frocks you will instantly recognize as of a distinctly high type-Frocks of the smart individuality that characterizes our Costume Room gowns-Frocks that you can seldom own for twenty-five dollars. A further reduction places in this group many Frocks suitable for wear now and between seasons, for traveling, for shopping, for almost any occasion.

Dark Georgettes and crepes are a very wise choice at this season; Frocks in soft tans and browns and grays are seen in smartly distinctive models; Frocks in white and light tints are charming for Midsummer; and there are even reproduc-tions of Paris models in this reduced group.

DEFENDS RECORD AS A REPUBLICAN

He Probably Will Make Further Statement on Prohibition in South St. Louis Tonight.

United States Senator George H. Williams, in speeches to three Negre audiences last night, stated his position as to the Ku Klux Klan. He issued a statement yesterday replying to the charge of his opponent for the senatorial nomi-nation, David M. Proctor, that he voted for the last three Democratic nominees for the Senate, Folk, Long and Reed, and against the Republican nominees, Spencer, in 1918 and 1920, and Brewster, in

The utterance as to the klan was rendered necessary by the an-nouncement, made last Friday by Dr. W. M. Campbell of St. Joseph, 'grand dragon," that the klan had indorsed Williams. The reply to Proctor's charge was brought by the insistence of Homer Mann and other Kansas City Republicans for a definite statement on the matter of Williams' votes in the senatorial elections of 1918, 1920 and 1922.

The two declarations, coming a week before the primary, leave Senator Williams still to make, possibly in his South St. Louis speech tonight, his pronouncement as to the prohibition issue, which he promised in a speech Monday night make this week. Chief Meeting Tonight.

Senator Williams' chief meeting onight will be in Tower Grove Tur er Hall, Grand boulevard and Juniata street. Former Mayor Kiel of Williams' campaign here, will act as chairman, and

Charles Nagel will speak. Three other appearances anat Negro meetings at Pine boulevard and Cardinal avenue, St. James' A. M. E. Church, Pendleton and St. Ferdinand avenues; and the Young Negro Republican Club, Twenty-third street and Lucas

In his speech at Pleasant Green (Negro) Baptist Chusch lart night, Senator Williams read the plank which he prepared for the Republican State convention in Springfield, in 1924. This plank, while not naming the Ku Klux Klan, was spoken of at the time as an anti-Klan plank.

Text of Plank Cited. The plank, which Williams said was still an expression of his views,

"The Republican party has no sympathy with any movement which fosters religious or racial hatreds. This should not be a political question because it should have no place in our civic life and goo results may not be tions in the heat of a political cam-

"However, whenever any association of individuals undertakes to restrain or prohibit the constitu-tional rights of the citizens by threats, demonstrations of power, and other intimidations they are invading the rights of the citizen and violating the safeguards of consti-

tutional government.
"When people organize for the purpose or with the effect of depriv-ing any citizen of his liberty to exerise his opinion lawfully or to do what is not denounced by statutes. they are invading the rights of such citizens and depriving him of a tion of the United States which provides that the trial of all crimes except in case of impeachment shall be by jury. We therefore express our unalterable opposition to any organization or movement which proscribes any class of citizens because of birth, religion, race or

Auswers Proctor's Charges. In the written statement as to his vote in senatorial elections. Senator Williams said that the charge that he voted for Folk and Long, and against Spencer, in 1918 and 1920, was "a plain, unvarnished lie." As to the charge of voting for Reed and against Brewster in 1922, he worded his reply differently, stating merely that he had given Brewster authority to deny it. Williams' statement begins with a reference to his record as a Republican, and

"The statement has been made that I did not vote for Senator Spencer when he was a candidate twice for the United States Senate and that I voted for Joseph W. Folk and Breckinridge Long. That statement is a plain, unvarnished lie of the most common garden

"The statement has been made also that I did not vote for my friend, R. R. Brewster, for the United States Senate. Mr. Brew-ster has denied that he had my authority for doing so. I sup-ported Senator Reed in his fight against the League of Nations and we were together in the Senate in fight against the League of struction, was killed 'yesterday, in the electric chair Sept. 9. Glo-

Nations Court.

"The statement has been made that I was not a good Republican in the Constitutional Convention. Anyone who will take the trouble to read the proposals which I wrote into the amendments of our State Constitution for the 'redistricting of the senatorial districts will know that that charge is just as truck he was driving turned when a truck he was driving turned over said that Bars Davia, held in connection with the case, hired him north of here. KANSAS CITY, Mo., July 28 .-Senator Williams' campaign in dry Western Missouri for renomination as the Republican candidate for the United States Senate has in the final week of the primary almost the proportions of a dry law enforcement crusade. In wet St. Louis so far the campaign is resting on the Senator's statements in his California speech that he was opposed to the Eighteenth Amend-ment. Dry propaganda purporting to come from the Williams head-quarters has been issued to party workers in Kansas City and is being circulated by them in dry com-

Drive a Peculiar One.

Taken in connection with the character of campaign Williams has been making in St. Louis, one of ignoring the liquor question while the Kiel-Koeln organization is fighting to hold the wets for the Senator on the basis of his California pronouncement against the Eighteenth Amendment, the dry drive for Williams in this section of the State is a peculiar one.

There is a disposition by some of the Republicans to await another announcement from the Senator before definitely determining their course. In a St. Louis speech he promised to take a stand on prohi-bition before the end of the cam-The organization of David M.

Proctor's Defense Plans.

In preparing to give publicity to the expected Williams statement to druggy after taste. All the come later in the week, the Proctor organization has no information as to what it will be. Their defensive preparations are due to the success of a political trick played in the Democratic primary campaign

In that campaign, it will be recalled, Gov. Gardner had escaped without a definite statement on prohibition until two days before the primary. In the cities he was supposed to be "wet" and in the country he talked about farm relief instead of prohibition. Two paign he issued a statement oppos-ing prohibition, his St. Louis supporters declaring it to be neces-sary to get the St. Louis vote.

It gained wide publicity in St. Louis, where it worked to his advantage, but the time was too short for his opponents to get it to all the rural communities, where i would have worked to his disadvantage. If the Williams statement should be "wet" the Proctor organization is said to be prepared to have it circulated within 24 hours

PARIS, July 28 .- With the new quotas available for immigrants to the United States on July 1, it was revealed that at the American Passport Bureau that nearly half of the 1000 French quota for the year had been taken. Last year at this time only a few applications for visas were on file. The particular reason for the larger number is said by of ficials to be the larger number of servants being taken home by American tourists who have spent had good French servants.

Strike Leader Faces New Charge.

By the Associated Press.
PASSAIC, N. J., July 28.—Albert Weisbord, youthful leader of the textile strikers here, today stands accused of carrying a folding knife with a three and one-half inch blade as a concealed weapon. The knife was found last night on the floor of an automobile owned by Michael Grabionski of Garfield, which was parked in front of strike headquarters in Garfield during a mass meeting. Weisbord denied ownership of the knife and charged police with having "planted" it He was released in \$25 bail.

U. S. CUSTOMS CLAMPS DOWN ON SO-CALLED ANTIQUES

Closer Scrutiny Ordered Because of Foreign Fakes Sold to Americans.

WASHINGTON, July 28 .- The weakness of Americans for purchasing antiques or anything labeled "antique" has aroused the interest of the Government and a in a warning to customs agents to be more wary in designating "antiques," which are al-

lowed free entry. Two recent investigations disclosed that the signer of a certific cate of antiquity on an article in Japan "knew nothing whatever about the particular merchandise, nor about the general subject of artistic antiques."

J. D. Nevius, acting Director of Customs, ordered a closer scrutiny hereafter.

"It is reported," he said, "that any curio dealer in Japan will ticles which he konestly believes be more than 100 years old. though actual proof is lacking. The verage dealer, however, is also willing to sell as antiques any other objects he may have and to execute any kind of a statement regarding them that his customer may desire."

Stay Allowed After Sentence of 35 Years Fixed by Jury Is Imposed.

By the Associated Press. CHICAGO, July 28 .- Martia J. Durkin. Chicago gunman, who killed Edwin Shanahan, a Federal agent, was sentenced yesterday to 35 years in Joliet penitentiary after a motion for a new trial had been overruled. A jury had fixed the punishment.

Durkin's face, bruised and scratched as a result of beatings he received recently at the hands of other prisoners in the Cook County jail, was devoid of expres-sion as the sencence was pronounced. His two sisters were in court, but his mother was absent. "The verdict is a just one and followed a fair and impartial trial, Judge Harry B. Miller said in pronouncing sentence, after overruling the motion for a new trial. He ranted a 60-day stay of execution

ST. LAWRENCE TREMOR OF 1925 Rock Beds, Depressed in Previous Times, Now Righting Selves, U.

S. Geologist Reports.

By the Associated Press.
WASHINGTON, July 28.—The tilting of rock beds following the glacial period was directly related to the St. Lawrence earthquake on Feb. 28, 1925, according to Arthur Keith, of the Geological Survey after an intensive investigation ordered by the Department of the Interior.

Under this theory, the weight of the great ice sheet depressed the northeastern states toward north. Since the retreat of the ice these rock beds have nearly re-covered their former position. The recovery is not yet complete be-cause it has continued within historic times. This, it is stated, is clearly of the order of magnitude to be associated with the produc-

tion of earthquakes. The investigation disclosed that the disturbances probably affected 2,000,000 square miles, the area including Chicago, South Carolina and far into Canada.

PAPERS WITHOUT PRICE.

The death this week of Robert Todd Lincoln has disclosed the existence of a treasure such as historians dream about but rarely come upon. Under seal, in the Library of Congress at Washington, is a collection of the papers of Abraham Lincoln, including 10,000 letters to and from the Civil War President. Robert Todd Lincoln gave the collection to the American people several years ago, on the condition that it be kept from public inspection for 21 years after his death.

Mark Potter, One of Road's Receivers, Defends Practice of Helping Friends -"Is Not Rebating."

DENIES TIP ON HIS APPOINTMENT

Former Member of I. C. C. Suggests Operation of All Northwest Lines Under One Management.

By Leased Wire From the New NEW YORK, July 28 .- Admitting it has been the policy of the Chicago, Milwaukee & St. Paul Railway to place its coal contracts with shippers who had given it ton-nage, Mark W. Potter, one of the receivers of the road and formerly a member of the Interstate Commerce Commission, declared, at the commission's investigation of the receivership, that this practice "is not rebating," but merely "placing contracts among its friends where it would do the most good in developing coal tonnage," and is "just what every railroad has always done in the purchase of its sup-

The hearing was held yesterday in the rooms of the Merchants' Association. #Interstate Commerce Commissioner Frederick I. Cox presided. J. J. Hickey represented the Government and O. W. Hines the St. Paul road. The date for the next hearing has not been set, but Commissioner Cox intimated that might not interfere with "plans for recreation during August."

Potter's defense of the St. Paul's system of allotting its coal orders was made in reply to questions by R. K. Prentiss, representing the bondholders' defense committee. Paid More Than Market Price. Potter denied that the road ha-

bitually paid more than market He testified that "There is a soft ot in the rate situation in Northwest trunk line territory." but said he did not believe the Inter-state Commerce Commission could remedy it. "The only practical way." he said, "would be for the carriers to fix up the rate struc-ture and then go to the commission with the result, but the difficulty is that it would be impossible to get unanimous action among the railroads."

Operation of all railroads in the Northwest under one management would cause "vast improvement," Potter declared.

"The day has gone by when one railroad must be operated at a loss in order that another railroad may make a little money" he said There are many roads which, in order to save pennies, are making other roads lose dollars." In discussing the St. Paul's bur-

den in operating the Puget Sound Extension, Potter blamed the Panama Canal for destroying the road's revenue. He said that since the canal's completion the road had ceased to pay and that while it was still a good investment for the bondholder, it has not paid anything to the stockholders.

Appointment Came as Surprise.

Daniel A. Grady, special Assistant Attorney-General of Wisconsin, representing Wisconsin stockholders, asked Potter if he had not been informed "either by letter, telegraph or telephone" by a representative of Kuhn, Loeb & Co.: the National City Bank or the St Paul, that he was to be appointed

one of the receivers.
"I had no communication by telegraph, telephone or telepathy," replied the witness, amid laughter. He said he became receiver three months after he tendered his resignation as Interstate Commerce Commissioner and 13 days after he had made a personal visit to the President to request that the resignation he accepted immediately.
"I had absolutely no idea then that I was to be appointed receiver," he repeated.

Phillip W. Roosevelt, a member of the investment house of Roosevelt & Son, who represented sev-eral security holders' organizations. gave reasons for the receivership of the St. Paul.

Lack of Adequate Rate Structure In behalf of those he represent. ed, Roosevelt asked the commis-sion to hold "that it is the greatest receivership in history, and is primarily due to the failure of the railroad managements in the Northwest to initiate rates which would eliminate proved discriminations against properties which they

represent."

Roosevelt asked the commission to find "that the primary cause of the failure of the St. Paul Railway is lack of an adequate rate struc-ture" and "that it is the right and duty of the management of the property, in conjunction with the managements of other railroads in the Northwest, and especially in Western trunk line territory promptly to initiate a thorough going examination and revision of the rate structure in the North-

Former Wife Not Mentioned -Son, Once Disinherited for Elopment Reinstated in Favor.

By Leased Wire From the Nev York Bureau of the Post-Dispatch. NEW YORK, July 28 .- A net estate of \$22,179,049 was left by Thomas Franklin Manville, asbestos manufacturer, who died Oct. 19, 1925, according to the appraisal filed in the office of the State Tax Commission. The gross assets were

Manville was known as the "as bestos king." The bulk of his for tune goes to his two children. Thomas Franklin Manville Jr., disinherited following his elopement in 1911 with a "Follies" girl, but later reinstated, and Lorraine Manville, actress and wife of Jay Gould. Mrs. Clara C, Manville, former wife of the senior Manville, was not nentioned in the will.

Thomas Manville the younger is treasurer of the Franklin Savings Bank. He was divorced by his first wife, Florence Huber, and later married Miss Louis A. McCoin. Stocks Worth \$22,856,092.

Stocks and bonds are appraised at \$22,856,092, the largest item beng that of the Manville Securities Corporation, Madison avenue. Of the 24,000 shares of stock issued by this corporation, those held by Mr Manville are valued at \$15,115,767. Employes, as well as relatives, re beneficiaries under Manville's will. The Fifth Avenue Hospital

received \$1,000,000. To his daughter, Mrs. Lorraine Manville Gould, and to his son. Thomas Franklin Manville, he left temporary life estate until 60 of \$1,000,000, and to each half of the residuary estate, \$7,221,280.

The Manville Securities Corpora-tion's largest item of assets is stock in Johns-Manville, Inc., valued at \$24,320,000. The will directed that a portion of this stock be offered for sale to employes of Johns-Manville at half the market value. The purchasers, however, would pay

56 Employes Beneficiaries.

By this arrangement 21 employes the company, became, by purchase of stock, beneficiaries in the estate to the amount of approximately \$70,000 each. Thirty-five others benefited to the amount of

\$43.066 each.
Manville provided that as soon after his death as possible the Manville Securities Corporation be dissolved and that a separate corporation be organized for the ownership of the office building on the southwest corner of Forty-first street and Madison avenue. This building is devoted chiefly to housing the Johns-Manville offices, and is valued at \$3,250,000.

'WILD CAT'S PLAYMATES'

ADMIT THEFT OF AUTO Iwo East St. Louis Boys, Who Left Note for Owners to Keep Cars Locked, Confess to Police.

"The Wild Cat's Playmates," as two boys signed a note left on the door of a garage from which they had taken an automobile yesterday were placed where they'll have no wild cats to play with when East St. Louis police found them riding in an automobile with one Illinois license and one Missouri plate.

Also there were sundry "Ha hat's" in that note, which the owner of the automobile, A. D. Weber, of 724 North Thirteenth street, East St. Louis, now believes he best en joys. The note, typed but with a signature in red ink, was:

"Dear Friend: Let this be a leson to you to keep your car locked. This is on you. Ha! Ha! "The Wild Cat's Playmates,

known as the Killers." "The Killers" were arrested Monday night in an automobile with only one license plate, but released when they explained the other was lost. Yesterday they tried it again with two that did not match, and then the police quizzed them until informed they were none other than "The Killers." They said a man who was riding with them had no connection with the theft, but he was held for in-vestigation. The boys, who are Stanley Davis, 17 years old, and Leonard Baldridge, 16, both of East St. Louis, said they had traded Weber's machine to a St. Louis garage, which is being sought.
"The Wild Cat's Playmates" were held for Federal authorities,

COMMODITY PRICES INCREASE Production Slightly Less Than in May, Reserve Report Shows.

washington, July 28.—Com modity prices advanced during June, while industrial activity maintained the level of the preced-ing month, which was slightly above that of June, 1925, it is reby the Federal Reserve Board. Production declined from May in the automobile, textile, iron and steel industries, although the board's index of production in basic

industries remained unchanged.

The general level of wholesale prices increased last month by less than half of 1 per cent, advances than half of 1 per cent, advances being noted in live stock, meat, silk and chemicals. Price decreases were reported in grains, cotton, textiles, building materials and house furnishings. Loans and investments of member banks of the reserve system reached a record volume at the end of June and, despite a decline early this month, were \$9,000,000 above the level of a year ago.

Complaint Against U. S. Sailors. washington, July 28.—The

Cuban Government has protested against the consequences of an offduty cruise recently taken by a group of American sailors and marines on the Guantanamo River. From echoes which have reached the State Department, it appears that the men visited several non-Volstead Cuban towns along the river, and thoroughly alarmed the natives by the manner in which they used their firearms. The Cuban protest has been referred to the Navy Department which has promised to investigate.

Heavy Track Is Likely for Ohio Classic Today

Boot to Boot, Bradley Entry, Is Favorite-10 Others Nominated.

CLEVELAND, July 28.-With the prospect of a heavy track due to continual rainy weather 11 3-year-olds were ready today to start in the third renewal of the Ohio State Derby \$10,000 added at Maple Heights.

The E. R. Bradley colt, Boot To Boot, stood out as an overyhelming advance choice, while Brazen. winner of two handicaps at eeting, was a second choice. His Derby will be decided over a mile and an eighth.

One of the candidates, Down-cast, showed excellent form yesterday by winning the Forest City Handicap, a five furlong dash. His time for the distance on a soggy track was within two-fifths of second of the track record.

Bolton of the Booth-Durnell Sta ble and Cartoon of the Dearborn Stables were two certain starters. Other probable starters were Brunt, Herkert and Barbara.

Albert Johnson, who piloted Bubbling Over to victory in the Kentucky Derby was selected to ride Boot to Boot.

TIMMY DE FOREST. conditioned Champion Dempsey for his fight with Jess Willard, picks Tunney to defeat Dempsey. He believes the titleholder cannot regain his old condition and that the younger and professionally active challenger will win the title.

Condition is 50 per cent of any long battle. The athlete who cannot regain physical fitness cannot hope to win any contest that lasts much longer than a punch or two. So far De Forest is in the right.

But perhaps the elderly James' view of what constitutes FIT-NESS may be a trifle off. For example, Dempsey was not fit for his fight with Firpo, according to De Forest. And yet Demp-,sey took more than nine-tenths of the fighters of the country could endure, was knocked clear out of the ring and still came back strong in the second round. and flattened his hulking foe.

If that is unfitness we hope Dempsey is in the same condition when he meets Tunney. If Dempsey is physically as good as he was in September, 1923, Tunney's title hopes will have to be deferred. But there is grave doubt if, after three years' idleness, he can regain the form he enjoyed when he faced the giant

Far, Far Behind.

T HE City Fathers have never been bitten by the golf bug. They still hold to the archaic theory that parks were made for all purposes and not for specialties; and that golf requires too much territory to set aside any more space than that already al-

This view is not held elsewhere. Even the smaller communities have opened their eyes and ears to the blandishments and merits of golf.

For example, Rockford, Ill., with a population of 65,000, has two municipal golf courses and is getting ready to construct a ird. St. Louis has one-andone-half courses, and these maintained at about one-third their

Now-no odor from perspiration

No fussy treatment—just a delightful toilet soap

JOW wonderful to find that you can H perspire any time and still stay sweetsmelling-offending no one-never em-

Such is the added protection of the all over antiseptic cleanness millions enjoy from their daily baths with the world's widest used toilet soap-Lifebuoy.

> Change your toilet soap -that's all

Nothing extra to buy-no directions to be followed-just change your toilet and bath soap to Lifebuoy and get rid of unpleasant body and perspiration odors for good. What

You will revel in its oceans of creamy, searching lather-far more than you get from other soaps. Dirt disappears as if by magic. Skin is amazingly benefited.

You'll learn to love it

Before you have finished one cake, you will learn to like the different, hygienic scent of Lifebuoy and actually prefer it to that of other soaps. It's such wholesome, convinc-

ing proof of Lifebuoy's protection to health. This pleasantly pungent scent rinses away entirely, leaving only a delightful suggestion of absolute cleanness.

Why it protects

Lifebuoy would be a wonderful toilet soap without its antiseptic. But this is the ingredient that makes it more than a toilet soapin short, the health soap.

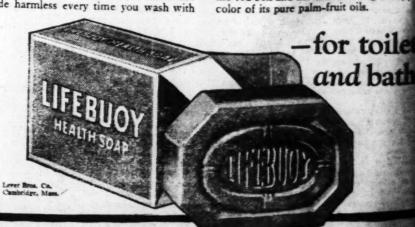

Germs that constantly menace health are made harmless every time you wash with

Lifebuoy. It also removes every verice of accumulated wastes of perspiration. It doesn't hide odor-it removes the cause.

Extremely economical

And all this added protection costs you not ing extra—it's free. Lifebuoy costs no mo —probably less—than the soap you an

now using. Get Lifebuoy today. You'll know it the red box and the cake orange-red,

Advertising

When concentrated in the PostDispatch is almost certain to restore the article if it is found by
an honest person, because the PostDispatch is the recognized Lost
medium of St. Louis invariably
consulted by persons who find lost
articles. It is also a fact recognized by St. Louisans that many
lost articles are advertised exclusively in the Post-Dispatch.
Each week the Post-Dispatch brints
TWICE as many LOST and FOUND
ads as the next St. Louis news
paper. If a lost article cannot be
recovered through the Post-Dispatch
it is as a rule, not recovered.

To Dr. W. B. Caldwell, of Monticello, Ill., a practicing physician for 41 years, it seemed cruel that so many constipated men, women, children, and particularly old folks, had to be kept constantly "stirred up" and half sick by taking cathartic pills, tablets, salts, calomel and nasty ells.

While he knew that constipation was the cause of nearly all head-aches, billicusmen, indigestion and stamach misery, he did not believe that a sickening "purge" or "physic" was necessary.

In Dr. Caldwell's Syrup Pepsin he discovered a laxative which helps to establish natural bowel "regularity" even for those chronically constipated. The remaining four pieces of jewelry

were held for later appraisal. "Here are my jewels, all of them." cried Miss Janis as she emerged from the office. "It was a charming experience. My operation was successful and mother and child are doing well."

Her mother, Mrs. Josephine Jan-

Naval Radio Station Tested. By the Associated Press.

WASHINGTON, July 28 .- Bu reau Office standard officials have given the naval radio station a Arlington, Va., a clean bill of health after checking up on the frequency under which it operates. It is assigned a frequency of 690 kilocycles and the bureau's report in layman's language means the station has kept within prescribed bounds and not butted in on other broadcast programs.

Midnight Sunworshipers Paid. OSLO, Norway, June 28 .- At the nour of midnight on June 24, 300 high-caste Indians climbed the North Cape to pray to the mid-night sun, with flowers and fire, according with the ancient veda rites. Brahmin Rai Gopaldas, exminister to the Maharaja of Baroda, pays pilgrims every year to go to the North Cape to pray to the midnight sun, which he con-siders the symbol of the eternal God's sun in the physical world.

was clearly revealed in the demonstrations that took place in the specialties. It was appearent that pools, sponsoring various stocks in that category which had been disposed to stand aside during the recent period of reaction, were again taking a strong hold on their favo-rites. Sharp gains in some in-stances verging on the spectacular, were the rule of the day in that were the rule of the day in that group. American Can was rushed up to new record high levels, along with Texas Gulf. Sulphur, Butterick and Case Threshing Machine. Advances ranging from 1 to 4 points were scored by such other stocks as R. Steel Operations Gain.

The steel group found added reason for enthusiasm in the week by trade journals, which amazing as it may seem at this time of the year, reported the industry as operating at a higher rate in the last week of July than heretofore. Even in the hot mills where operations were curtailed by the intense heat recently, schedules have been stepped Jup to take up the slack caused by that slackening. The further recovery in Steel common was accompanied by a broad buying movement in the group as a whole, with bethebem, Republic, Crucible. Sloss-Sheffield and Gulf States Steel keeping the pace. The steady improvement that has been manifest in copper metal since the perinning of the week began to reflect in the shares of the producing companies. Anaconda, Kinnecott and Cerro De Pasco were in good demand and American Smelting made sharp recovery from the low levels touched on the reaction.

Grains Develop Fresh Strength.

"Slight recessions in wheat at the Chicago during the first few minutes of trading under selling influenced by the breaking of the drouth in the spring wheat area were quickly recovered as July spurted ahead helped by an unexpected light receipts. Subsequent demand was sufficient to bring about advances of ic to Ze a bushel. Strength in wheat influenced a firm tone in other grains, notably corn, and there was a fair demand for cats. Interest in cotton dropped off sharply and in consequence fluctuations even in the active months were purely nominal despite the fact that the weekly weather report told of poor conditions in the belt.

### MEDITATIONS MARRIED WOMAN By HELEN ROWLAND

MARRIAGE, THE GREAT GAMBLE.

O marry or not to marry that is the question!

Once, there was no question about it. If you didn't marry, you were a failure in the eyes of the world, and a disappointment to

Marriage was the Great Miracle, which afforded a girl a chance to gratify her vanity, pacify her family, mortify her enemies, and ny possess electrify her friends. Laurels were no substitute for orange blos- beardless face which made him apsoms; and a wedding ring was a greater prize than a loving-cup, a pear not more than 18. He was college degree, or a Carnegie medal.

But all that is OUT! As quaint as a joke about a horse and but it was the hair and eyes which buggy! Giris, as well as young men, are beginning to look upon Alan particularly liked, scarcely marriage as a gamble rather than as a goal. And a husband is regarded as a speculation, rather than as God's greatest gift to woman.

You see, it's this way: -- If you haven't got a husband, you can that he was engaged in the profesnever be sure of an escort to take you where you want to go. But, sion of liquor running, or that he If you HAVE a husband, you can be pretty sure that he will want to was involved seriously with a man take you somewhere that you don't want to go.

If you are free, you have to work hard for your living-but you can spend your money a: foolishly as you like. And if you are "somebody's rib" you have to wheedle or beg for your money-and then explain how, why and where you spent it.

If you are single, you have to sit up and wait for a man to go home and, if you are married, you have to sit up and wait for him to come home. So, you don't get much sleep, either way.

If you haven't a husband, you are apt to sit around all evening, waiting for somebody to show up and devote himself to you-and if you have a husband, you may have to sit around all evening waiting for him to stop devoting himself to some other woman.

If you are unattached, all the men suspect that you are after them, and all the women eye you suspiciously, and wonder if you are a vamp or husband-hunter. And if you are married, everybody eyes your husband and wonders how you "stand for that man."

If you are single, somebody always wants to take you home from a party before you have had half enough—and if you are married, you have to hang around and try to look pleasant, until your "Dearie" has had too much. So, the odds are even!

In the sweet ald days, when every married man was a husband, ly in her corner and watched them and never forgot it, marriage was a feather in your cap. But, in these days when every husband expects to be kept right in circulation, been there for many, many it is more like a pebble in the shoe.

Marriage was once a blessing pure and simple. But it will never be simple or pure or an unmixed blessing again, until men wake up to tically inclined young dare-devil the realization that, while you can be a little bit in love, you can't who possessed the makings of an be a little bit married or a little bit dead. the kitchen to speak with Ellen about restocking the pantry shelves. Johnny Ames dropped his mask of levity and turned serious eyes upon Alan.

"you're a peach." What's that, Johnny?"

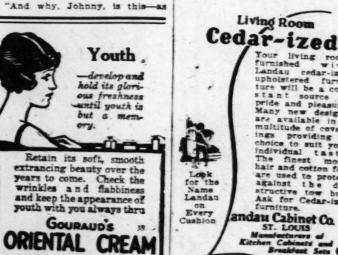

"You're a wonder. I'm for you. I didn't know anything about you —or this deal—until after Bev had gone and pulled it. I hit the ceiling. You know-if you'd been the wrong sort, things could have been made pretty tough for the kid-and I'd have felt like a worse dog -her doing it for me, and all. "North, you mean?"

"Don't be sorry for me. I went any rate, she couldn't understand into it with my eyes wide open. I would have killed myself that first you at all. She said you talked like you were making a play for hernight and ever since then I've tried and she knew all the time you to regard myself as though I were weren't. Of course, she knows that

"That's fine talk," answered Johnny, and now it was he who appeared the more mature, "but it ain't human nature. No matter whether you'd have bumped your self off or not-you didn't. You ain't dead now-you're very much alive and I take it you'd like to remain that way." "I would: that's true."

"All right. Six feet of earth and a lot of sweet-smelling flowers don't look good to a man who has started to live for the first time." A shadow clossed his face. "Believe me, Alan, I know!"

Alan leaned forward and rested his hand on the boy's knee. "It's a pretty worrisome situation all 'round, isn't it, Johnny?"

"You want me to be frank?" "Surely."

"I wouldn't give a nickel for your chances, that's what. This hird North has got red lemonade in his veins. Human life don't mean any more to him than an old pair of socks. O satisfy our curiosity as to what extent the popularity of the wide-brimmed hat is gaining upon the small, close-fitting cloche whose vogue has been so unusually long in the annals of style, 1000 women's hats were counted as they passed on the streets and classified. The results attained were as follows:

LARGE HATS, 385. SMALL HATS, 493.

MEDIUM-SIZED HATS, 122. The small hat, it will be seen, is stilling holding its own. The count was made at two points of great pedestrian conges-

tion, namely at Eighth and Olive streets and De Baliviere entrance to Forest Park. Five hundred were counted at each point. At the park entrance large hats were most popular. In the business and shopping district small hats were decidedly in the majority. Which latter observations indicate that comfort, suitability and logic govern millinery styles perhaps more than has been popularly cred-

Out in the bright sunlight, in casters are promising broad-the wide epen spaces where the brimmed hats for dressy occasions little hat, and looked and wearer is on dress narade or rec reation bent, certainly the broad shady hat is most becoming, most practical and suitable. While in the crowds down town and worn with trim morning frocks, the small hat unquestionably is smarter and more convenient.

Whether winter styles arrive to confute and confound these evidences that women may be grow-ing more sensible in their dress than they have been at times in the past, remains to be seen. There is nothing practical about widebrimmed hats of felt, velvet or other winter time fabrics yet there have been seasons when fashion decreed them and they have been most in evidence. Usually rats and puffs and mountainous arrangments of hair have accompanied large wide hats a la borough. Remember the hat pins a foot long that sometimes held loops of hair pinned to the under side of brims that perched upon mattresses of hair?

Before there is danger of a re turn to those fashions a lot of hair will have to be grown upon heads of women. But fashion fore-

### Sideshows of Science The Midge and Its Curious Eye.

THE head of the insect midge is formed by a peculiarly-shaped overlap of the eyes a mass of them on each side of the head, and giving the appearance of a flapeared cap such as one sees used in windy weather.

The portion intervening between the eyes is prolonged downwards into the biting apparatus, the lancets and tongue being plainly visible and being supported by a very strong and thickened base. On either side are a pair of

sensory organs, whose properties are at present unknown.

When you rub these delicate cobwebby fabrics with a you rub these delicate cobwebby fabrics with a cake of soap the damage is often invisible at first—but your cherished little dresses begin to lose their lovely freshness and look shabby before the season is half over. Repeated rubbing actually destroys the delicate fibres and cuts the life of sheer fabrics in half.

Ordinary chips and flakes containing free alkali are no less harmful! Swiftly, certainly, free alkali destroys the life of the delicate fibres, fades their colors—quickly your chiffons become dowdy, old-looking.

With Lux there is no ruinous rubbing, no harmful free alkali! Lux was created expressly to cleanse and renew the loveliness of dainty fabrics—use it for your chiffons and keep them fresh, unfaded, lovely as the day you bought them! Its bubbling, sparkling suds cleanse gently, with the greatest safety. You know the most delicate fabric safe in pure water alone is safe in Lux! Lever Broa, Co., Cambridge, Mass.
